

Curriculum Vitae

September 1, 2026

Ruijiang Gao

Naveen Jindal School of Management

Information Systems

The University of Texas at Dallas, 800 West Campbell Road, Richardson, TX 75080

ruijiang.gao@utdallas.edu • <https://ruijiang81.github.io/>

Educational History:

Ph.D., May 2024, The University of Texas at Austin, McCombs School of Business, 2110 Speedway, Austin, TX 78712, Information, Risk and Operations Management

Dissertation: “Advancing Human-AI Systems: On Robustness, Decision Making, and Beyond,”
dissertation advisor: Maytal Saar-Tsechansky

M.S., May 2018, University of Michigan, 500 S. State Street, Ann Arbor, MI 48109, Statistics

B.S., June 2016, University of Science and Technology of China (School of the Gifted Young), 96
Jinzhai Road, Hefei, Anhui 230026, China, Statistics

Employment History – principal positions since the Bachelor’s degree:

Assistant Professor of Information Systems, August 2024–present, Naveen Jindal School of Management, The University of Texas at Dallas, 800 West Campbell Road, Richardson, TX 75080

Graduate Research Assistant / Teaching Assistant, August 2018–May 2024, McCombs School of Business, The University of Texas at Austin, 2110 Speedway, Austin, TX 78712

Employment History – temporary or visiting appointments:

Machine Learning Research Intern, May 2023–August 2023, Netflix Research, 100 Winchester Circle, Los Gatos, CA 95032 (hosts: James McInerney and Nathan Kallus)

Visiting Researcher, May 2022–August 2022, Harvard Business School, Harvard University, Soldiers Field, Boston, MA 02163 (host: Himabindu Lakkaraju)

Research Intern, June 2021–August 2021, IBM Thomas J. Watson Research Center, 1101 Kitchawan Road, Yorktown Heights, NY 10598 (hosts: Wei Sun, Max Biggs, and Markus Ettl)

Research Intern, June 2020–August 2020, IBM Thomas J. Watson Research Center, 1101 Kitchawan Road, Yorktown Heights, NY 10598 (hosts: Wei Sun, Max Biggs, and Markus Ettl)

Data Scientist Intern, April 2018–July 2018, Tencent Holdings Ltd., Nanshan District, Shenzhen, Guangdong 518057, China

Business Intelligence Engineer Intern, June 2017–September 2017, Amazon.com, Inc., 410 Terry Avenue North, Seattle, WA 98109

Professional recognitions and honors (study, teaching, research, service):

University of Texas at Austin Graduate School Provost Fellowship, 2018, The University of Texas at Austin

Professional Development Award and Good Systems Student Conference Grant, 2020, Office of Graduate Studies, The University of Texas at Austin

Best Student Paper Award (1 of approximately 200 submissions), 2022, Conference on Information Systems and Technology (CIST), INFORMS Information Systems Society

Ph.D. Incubator Special Recognition Award Finalist, 2022, INFORMS Conference on Advances in Decision Analysis (ADA)

Graduate School Continuing Fellowship, 2022, The University of Texas at Austin

Best Paper Runner-Up Award (2nd of 243 accepted papers), 2024, Workshop on Information Technologies and Systems (WITS)

New Faculty Research Grant (2 of 11 awarded), 2025, Naveen Jindal School of Management, The University of Texas at Dallas

Nunamaker-Chen Dissertation Award, Runner-Up, 2025, INFORMS Information Systems Society

Best Paper Award, 2025, INFORMS Workshop on Data Science

Best Student Paper Award, 2025, Workshop on Information Technologies and Systems (WITS)

Professional memberships:

Institute for Operations Research and the Management Sciences (INFORMS), 2024–present

Association for Information Systems (AIS), 2024–present

Achievements in original investigation:

Citations follow the Chicago author-date system. All authors and co-authors are listed. An asterisk () denotes alphabetical author ordering with equal contribution.*

Books authored or co-authored, etc.:

None.

Books edited or co-edited; exhibitions curated, etc.:

None.

Journal special issues edited or co-edited, etc.:

None.

Articles in refereed journals:

1. Gao, Ruijiang, Mingzhang Yin, James McInerney, and Nathan Kallus. 2024. “Adjusting Regression Models for Conditional Uncertainty Calibration.” *Machine Learning* (Special Issue on Uncertainty Quantification in Machine Learning).

Articles appearing as chapters in edited volumes:

None.

Refereed conference publications or abstracts:

In machine learning and artificial intelligence, full-length papers in the archival proceedings of NeurIPS, ICML, AAAI, IJCAI, AISTATS, ICCV, and CVPR are peer-reviewed, competitively selected (typically 15–26% acceptance), and are the field’s primary publication outlet. They are counted as full research publications rather than as abstracts. The table below gives each venue’s h5-index and its rank in Google Scholar Metrics.

Venue	h5-index	Rank
CVPR	450	1st in Computer Vision
NeurIPS	371	1st in Artificial Intelligence
ICML	272	3rd in Artificial Intelligence
ICCV	256	3rd in Computer Vision
AAAI	232	4th in Artificial Intelligence
IJCAI	136	14th in Artificial Intelligence
AISTATS	101	3rd in Data Mining and Analysis

1. Cao, Junyu*, Ruijiang Gao*, and Esmaeil Keyvanshokoo*. 2025. “HR-Bandit: Human-AI Collaborated Linear Recourse Bandit.” In *Proceedings of the 28th International Conference on Artificial Intelligence and Statistics (AISTATS)*.
2. Gao, Ruijiang, and Mingzhang Yin. 2025. “Confounding-Robust Deferral Policy Learning.” In *Proceedings of the 39th AAAI Conference on Artificial Intelligence (AAAI)*.
3. Gao, Ruijiang, Mingzhang Yin, and Maytal Saar-Tsechansky. 2024. “SEL-BALD: Deep Bayesian Active Learning for Selective Labeling with Instance Rejection.” In *Advances in Neural Information Processing Systems 37 (NeurIPS)*.
4. Gao, Ruijiang, and Himabindu Lakkaraju. 2023. “On the Impact of Algorithmic Recourse on Social Segregation.” In *Proceedings of the 40th International Conference on Machine Learning (ICML)*.
5. Wang, Zhendong*, Ruijiang Gao*, Mingzhang Yin*, Mingyuan Zhou, and David M. Blei. 2023. “Probabilistic Conformal Prediction Using Conditional Random Samples.” In *Proceedings of the 26th International Conference on Artificial Intelligence and Statistics (AISTATS)*.
6. Gao, Ruijiang, Max Biggs, Wei Sun, and Ligong Han. 2022. “Enhancing Counterfactual Classification Performance via Self-Training.” In *Proceedings of the 36th AAAI Conference on Artificial Intelligence (AAAI)*. Acceptance rate: 15%.

7. Han, Ligong, Martin Renqiang Min, Anastasis Stathopoulos, Yu Tian, Ruijiang Gao, Asim Kadav, and Dimitris N. Metaxas. 2021. "Dual Projection Generative Adversarial Networks for Conditional Image Generation." In *Proceedings of the IEEE/CVF International Conference on Computer Vision (ICCV)*, 14438–14447.
8. Gao, Ruijiang, Maytal Saar-Tsechansky, Maria De-Arteaga, Ligong Han, Min Kyung Lee, and Matthew Lease. 2021. "Human-AI Collaboration with Bandit Feedback." In *Proceedings of the 30th International Joint Conference on Artificial Intelligence (IJCAI)*. Acceptance rate: 13.9%.
9. Gao, Ruijiang, and Maytal Saar-Tsechansky. 2020. "Cost-Accuracy Aware Adaptive Labeling for Active Learning." In *Proceedings of the 34th AAAI Conference on Artificial Intelligence (AAAI)*, 34(3): 2569–2576.
10. Han, Ligong, Ruijiang Gao, Mun Kim, Xin Tao, Bo Liu, and Dimitris N. Metaxas. 2020. "Robust Conditional GAN from Uncertainty-Aware Pairwise Comparisons." In *Proceedings of the 34th AAAI Conference on Artificial Intelligence (AAAI)*, 10909–10916.
11. Han, Ligong, Yang Zou, Ruijiang Gao, Lezi Wang, and Dimitris N. Metaxas. 2019. "Unsupervised Domain Adaptation via Calibrating Uncertainties." In *Proceedings of the IEEE/CVF Conference on Computer Vision and Pattern Recognition Workshops (CVPRW)*, 99–102.

Unrefereed publications:

None.

Unrefereed abstracts:

None.

Other writings (not including abstracts):

None.

Books/articles accepted for publication (note date of acceptance):

None pending at this time.

Books/articles submitted for publication (note date of submission and to whom):

1. Gao, Ruijiang, Maria De-Arteaga, and Maytal Saar-Tsechansky. "Learning Complementary Policies for Human-AI Deferral Collaboration." Submitted to *Management Science*, March 19, 2025; **invited major revision**; revision submitted July 23, 2026; currently **under second-round review**.
2. Yang, Yunxuan (Michael), Ruijiang Gao, and Zhiqiang (Eric) Zheng. "Sell Data to AI Algorithms Without Revealing It: Secure Data Valuation and Sharing via Homomorphic Encryption." Submitted to *Management Science*, March 23, 2026; **invited major revision** received August 25, 2026; revision in preparation.
3. Cao, Junyu*, Ruijiang Gao*, Esmaeil Keyvanshokoo*, and Jianhao Ma*. "LIBRA: Language Model Informed Bandit Recourse Algorithm for Personalized Treatment Planning." Submitted to *Manufacturing & Service Operations Management*, June 20, 2026; **under first-round re-**

view. Previously reviewed at *Management Science* (rejected).

4. Biggs, Max*, Ruijiang Gao*, and Wei Sun*. "Loss Functions for Discrete Contextual Pricing with Observational Data." Submitted to *Manufacturing & Service Operations Management*, August 31, 2026; **under review**. Previously reviewed at *Operations Research* through two rounds, receiving a major revision invitation before rejection at the second round.
5. Yin, Mingzhang, Ruijiang Gao, and Ziwei Cong. "Generative Personalization with Textual and Non-textual Data" (formerly "Personalizing Language Models for Generative Targeting"). Submitted to *Marketing Science*; **reject-and-resubmit** decision received September 27, 2025; resubmitted; **under review**.
6. Bian, Zeyu*, Max Biggs*, Ruijiang Gao*, and Zhengling Qi*. "Beyond Demand Estimation: Consumer Surplus Evaluation via Cumulative Propensity Weights." Submitted to *Operations Research*, April 23, 2026; **under review**. Previously reviewed at *Management Science* (rejected).
7. Deng, Junwei, Xirui Jiang, Shiyuan Zhang, Shichang Zhang, Himabindu Lakkaraju, Ruijiang Gao, Chris Donahue, and Jiaqi W. Ma. "Computational Copyright: Towards a Royalty Model for Music Generative AI." Resubmitted to *Manufacturing & Service Operations Management*; **under review**. Previously reviewed at *Management Science* (rejected).

Works in progress:

1. Chen, Zenan*, Ruijiang Gao*, and Yingzhi Liang*. "Revealing AI Reasoning Increases Trust but Crowds Out Unique Human Knowledge." **In preparation for submission** to *Proceedings of the National Academy of Sciences*, targeted for September 2026. Previously reviewed at *Science* (rejected). Preliminary version presented at WISE, 2025.
2. Gao, Ruijiang, and Steven Chong Xiao. "Nonstandard Errors in AI Agents." **In preparation for submission** to *Information Systems Research*. Presented at the Taiwan Summer Workshop on Information Management (TSWIM), 2026.
3. Gao, Ruijiang, and Hao Pang. "Ninety-Eight Percent Talk: Digital Twins of the FOMC and Monetary Policy Surprises." In preparation. Preliminary version presented at SCECR, 2026.
4. Lee, Myung Jin (Ph.D. student, Texas A&M University), Ruijiang Gao, and Esmail Keyvanshokoo. "Sequential Feature Acquisition for Treatment Assignment under Partial Observability." Accepted for presentation at the INFORMS Workshop on Data Science, 2026; in preparation for journal submission.
5. Yang, Yunxuan (Michael) (Ph.D. student, The University of Texas at Dallas), Ruijiang Gao, and Zhiqiang (Eric) Zheng. "Insight without Sight: LLM Inference with Private Data." Accepted for presentation at the INFORMS Workshop on Data Science, 2026; in preparation for journal submission.
6. Qing, Zhining (Ph.D. student, University of Florida), Ruijiang Gao, and Mingzhang Yin. "Evaluating Agents When Experts Know More: A Doubly-Valid and Doubly-Sharp Approach." In preparation for journal submission.

Invited talks/presentations at professional meetings, seminars, or colloquia:

1. “Nonstandard Errors in AI Agents.” Taiwan Summer Workshop on Information Management (TSWIM), Institute of Service Science, National Tsing Hua University, Hsinchu, Taiwan, June 29–July 1, 2026.
2. “Nonstandard Errors in AI Agents.” Toronto Data Workshop, University of Toronto, April 2026.
3. “Human-AI Collaborative Decision Making.” Statistics Seminar, Department of Mathematical Sciences, The University of Texas at Dallas, Fall 2024.

Refereed talks/presentations at professional meetings:

1. “Ninety-Eight Percent Talk: Digital Twins of the FOMC and Monetary Policy Surprises” (with Hao Pang). Symposium on Statistical Challenges in Electronic Commerce Research (SCECR), 2026.
2. “Revealing AI Reasoning Increases Trust but Crowds Out Unique Human Knowledge.” Workshop on Information Systems and Economics (WISE), 2025.
3. “SEL-BALD: Deep Bayesian Active Learning for Selective Labeling with Instance Rejection.” Workshop on Information Technologies and Systems (WITS), 2024. *Best Paper Runner-Up Award (2nd of 243 accepted papers)*.
4. “Computational Copyright: Towards a Royalty Model for Music Generative AI.” Workshop on Generative AI and Law, International Conference on Machine Learning (ICML), 2024.
5. “Nonparametric Discrete Choice Experiments with Machine Learning Guided Adaptive Design.” RealML Workshop, Conference on Neural Information Processing Systems (NeurIPS), 2023.
6. “HR-Bandit: Human-AI Collaborated Linear Recourse Bandit.” Conference on Information Systems and Technology (CIST), 2023.
7. “Learning Complementary Policies for Human-AI Teams.” Conference on Information Systems and Technology (CIST), 2022. *Best Student Paper Award (1 of approximately 200 submissions)*.
8. “Active Incentive Learning.” Conference on Information Systems and Technology (CIST), 2022.
9. “Learning Complementary Policies for Human-AI Teams.” INFORMS Data Science Workshop, 2022.
10. “Loss Functions for Discrete Contextual Pricing with Observational Data.” INFORMS Revenue Management and Pricing Conference, 2022. *Spotlight presentation*.
11. “Loss Functions for Discrete Contextual Pricing with Observational Data.” INFORMS Conference on Advances in Decision Analysis (ADA), 2022. *Ph.D. Incubator Special Recognition Award Finalist*.
12. “Probabilistic Conformal Prediction Using Conditional Random Samples.” Workshop on Distribution-Free Uncertainty Quantification (DFUQ), International Conference on Machine

Learning (ICML), 2022. *Spotlight presentation*.

13. "Loss Functions for Discrete Contextual Pricing with Observational Data." INFORMS Annual Meeting, 2021.
14. "Learning Complementary Policies for Human-AI Teams." Symposium on Statistical Challenges in Electronic Commerce Research (SCECR), 2021.

Refereed presentations by advised students:

1. Lee, Myung Jin, Ruijiang Gao, and Esmaeil Keyvanshokoo. "Sequential Feature Acquisition for Treatment Assignment under Partial Observability." INFORMS Workshop on Data Science, 2026 (accepted, flash talk).
2. Yang, Yunxuan (Michael), Ruijiang Gao, and Zhiqiang (Eric) Zheng. "Insight without Sight: LLM Inference with Private Data." INFORMS Workshop on Data Science, 2026 (accepted, regular talk).
3. Qing, Zhining, Ruijiang Gao, and Mingzhang Yin. "Evaluating Agents When Experts Know More: A Doubly-Valid and Doubly-Sharp Approach." INFORMS Workshop on Data Science, 2026 (accepted).
4. Yang, Yunxuan (Michael), Ruijiang Gao, and Zhiqiang (Eric) Zheng. "Sell Data to AI Algorithms Without Revealing It: Secure Data Valuation and Sharing via Homomorphic Encryption." Workshop on Information Technologies and Systems (WITS), 2025. *Best Student Paper Award*.
5. Yang, Yunxuan (Michael), Ruijiang Gao, and Zhiqiang (Eric) Zheng. "Sell Data to AI Algorithms Without Revealing It: Secure Data Valuation and Sharing via Homomorphic Encryption." INFORMS Workshop on Data Science, 2025. *Best Paper Award*.
6. Yang, Yunxuan (Michael), Ruijiang Gao, and Zhiqiang (Eric) Zheng. "Sell Data to AI Algorithms Without Revealing It: Secure Data Valuation and Sharing via Homomorphic Encryption." Conference on Information Systems and Technology (CIST), 2025.

International / U.S. Patents provisional applications:

1. Gao, Ruijiang, Wei Sun, Max Biggs, Markus Ettl, and Youssef Drissi. "Counterfactual Self-Training." U.S. Patent Application No. 17/402,367, 2023.
2. Gao, Ruijiang, Wei Sun, Max Biggs, Youssef Drissi, and Markus Ettl. "Imputing Counterfactual Data to Facilitate Machine Learning Model Training." U.S. Patent Application No. 17/654,617, 2023.

External funding for original investigations:

Proposals submitted:

None to date.

Grants/contracts awarded:**New Faculty Research Grant**

Principal Investigator: Ruijiang Gao

Naveen Jindal School of Management, The University of Texas at Dallas (internal award; 2 of 11 proposals funded)

Awarded March 28, 2025, \$25,000

Teaching:**Doctoral advisement/direction:**

Madhan Gopal Perumal, Doctor of Business Administration, supervisory committee member (appointed Summer 2026); supervising professor: Amit Mehra. Degree in progress.

Zechariah Laidlaw, Doctor of Business Administration, supervising instructor for DBUA 7419 Research Projects II (independent research), Summer 2026 (June 1–August 14, 2026). Degree in progress.

Zhaokun Xue, Ph.D. in Information Systems, second-year research paper evaluator, Fall 2024. Degree in progress.

Yunxuan (Michael) Yang, Ph.D. in Information Systems, research collaborator and co-author, 2025–present. Degree in progress.

Masters advisement/direction:

None to date.

Classroom teaching:

2025, Spring, ITSS 3300, Information Technology for Business (Sections 505 and 508; combined enrollment 127)

2025, Fall, ITSS 3300, Information Technology for Business (Sections 002, 006, and 009; combined enrollment 193)

2026, Fall, ITSS 3300, Information Technology for Business (Sections 002, 006, and 009; enrollment approximately 55 per section)

Other:

Undergraduate independent study supervisor: Sweta Valisammagari, Fall 2025.

Doctoral independent study supervisor: Zechariah Laidlaw (DBUA 7419), Summer 2026.

Service – reviewing, refereeing and administrative work with professional societies and organizations; departmental, college, university committees; community service, etc.:

University, school, and departmental service:

2024–2025 and 2025–2026: Peer teaching evaluator, Information Systems Area, Naveen Jindal School of Management. Classroom teaching evaluation of Ozgur Aksoy, Spring 2025 and Spring 2026.

Fall 2024: Evaluator, second-year research paper of Zhaokun Xue, Information Systems Ph.D. program, Naveen Jindal School of Management.

Summer 2026: Member, Doctor of Business Administration supervisory committee for Madhan Gopal Perumal, Naveen Jindal School of Management.

Editorial service:

Editorial Board Member, *Decision Sciences*, department on “Agentic AI and Human-Agent Collaboration in Business,” 2026–present

Journal reviewing:

Management Science, ad hoc reviewer

Information Systems Research, ad hoc reviewer

MIS Quarterly, ad hoc reviewer

Operations Research, ad hoc reviewer

INFORMS Journal on Computing, ad hoc reviewer

IEEE Transactions on Pattern Analysis and Machine Intelligence, ad hoc reviewer

Scientific Reports, ad hoc reviewer

Conference program committees and reviewing:

Program committee member / reviewer, International Conference on Learning Representations (ICLR)

Program committee member / reviewer, Conference on Neural Information Processing Systems (NeurIPS)

Program committee member / reviewer, International Conference on Machine Learning (ICML)

Program committee member / reviewer, International Conference on Artificial Intelligence and Statistics (AISTATS)

Program committee member / reviewer, AAAI Conference on Artificial Intelligence (AAAI)

Program committee member / reviewer, ACM Conference on Fairness, Accountability, and Transparency (FAccT)

Program committee member / reviewer, IEEE Winter Conference on Applications of Computer Vision (WACV)

Reviewer, Workshop on Information Technologies and Systems (WITS)

Reviewer, International Conference on Information Systems (ICIS)

Reviewer, INFORMS Workshop on Data Science
